

ProDevice ASM240 degausser

The ProDevice ASM240 degausser is undoubtedly the most innovative device for the permanent and safe data removal from magnetic media. The easy to use and technologically advanced degausser is based on the best components and technologies. Unique functions and efficiency of operation make it the most rational choice among degaussers available on the market. The ProDevice ASM240 is ideal for enterprises that follow strict rules related to information security.

CYBERSECURITY™
MADE IN EUROPE

Benefits

We guarantee safety and effectiveness – you will irretrievably remove data from media with high coercivity (magnetic field induction – up to 22 000 Gauss = 2.2T).

We promise convenience and control – the mobile application will allow you to fully control the data removal process (scanning, photographing carriers, recording a video and creating a degaussing report).

We ensure time saving and efficiency – you can delete data from the medium in less than 5 seconds.

Mobile App.

SCANNING

TAKING PHOTOS

RECORDING MOVIES

MAKING REPORTS

Why choose the ProDevice ASM240 degausser?

- 100% efficiency – irreversibly data removal from any magnetic carrier (magnetic field induction - up to 22 000 Gauss = 2.2T).
- Short time of data destruction from the carrier – less than 5 seconds.
- Cooperation with mobile devices – the degausser can be operated using an intuitive App. (extended version of the App available for advanced reporting).
- Mobile App report of the degaussing process includes: execution date, information about the employee, serial numbers of degaussed carriers, photos and videos documenting the demagnetization, media type, result of the process.
- Easy inventory of degaussed carriers – barcode reading facilitates device identification.
- Dedicated software to manage the device's history and parameters.

The ProDevice ASM240 ensures compliance with the mandates, regulations and security guidelines

- PCI DSS (Payment Card Industry), Data Security Standard
- NIST (National Institute of Standards and Technology), Guidelines for Media Sanitization: NIST SP 800-36 NIST SP 800-88
- HIPAA (Health Insurance Portability and Accountability Act)
- PIPEDA (Personal Information Protection and Electronic Documents Act)
- HMG CESG IS5

Supported magnetic storage media

- HDDs: 2.5" and 3.5"
- Data tape media: LTO, DLT, SDLT, DDS, DAT, AIT, Travan, SLR, QIC, 3592, 3590E, 3490E, 3480, 9840, 9940, T10K
- Others: floppy disks 3.5", some audio and video cassettes

Degausser operates in accordance with the ISO27001 standard.

ASM240 is a perfect solution for companies and institutions that care for the highest standards related to the protection of confidential data, defined by GDPR.

Technical specification

	ProDevice ASM240 Professional	ProDevice ASM240+
Magnetic field induction	Up to 2.2T = 22 000 Gauss	Up to 2.2T = 22 000 Gauss
Data removal cycle	Less than 5 s / unit	Less than 5 s / unit
Charging time between two processes	0 s	0 s
Mobile App (barcode scanner and camera)	Yes	Yes
Built - in camera	No	Yes
Reporting	Yes	Yes
PPMS Technology	Yes	Yes
Power supply	115V, 230V / 50Hz, 60Hz	115V, 230V / 50Hz, 60Hz
Dimensions	465mm x 350mm x 325mm	465mm x 350mm x 325mm
Maximum size of the media	150mm x 112mm x 25mm	150mm x 112mm x 25mm
Weight	36 kg	36 kg
Shipping case (option)	Yes	Yes
Warranty	2 years up to 5 years	2 years up to 5 years
