BE AWARE – CHOOSE WISELY

ProDevice DSS
cabinet

CYBERSECURITY ™
MADE IN EUROPE

MADE IN POLAND

The ProDevice DSS (Drawer Storage System) cabinet is a perfect solution for secure storage of data carriers (magnetic tapes, disks, floppy disks, etc.). The product is made of high-quality steel and powder coated. Drawers are lined with a damping mat, which protects the carriers, also minimizes the possibility of media movements and partitions when pulling out and inserting drawers. ProDevice storage cabinets are successfully sold worldwide through our extensive distributor network.

Benefits

We provide security and control – a solid structure and dedicated systems guarantee security of the stored data.

We ensure efficiency – you can store approximately 600 (DSS500) and 792 (DSS600) tapes.

We ensure good value for money – you will receive a high-quality product at an economical price.

Why choose the ProDevice DSS cabinet?

- The drawers for data carriers are equipped with separating barriers, which can be freely configured, depending on the type of media stored in a drawer.

- The drawers close with Ultra Track lock.

- The edges of the drawer handles are secured with a special rubber, which ensures safety and comfort of use.

- The drawers are mounted on telescopic ball bearing slides (with a lock preventing falling out), ensuring smooth and light ejection.

- The cabinet is equipped with self-leveling feet.

- The maximum uniform load of each drawer is 50 kg / 110 lb.

- The ProDevice DSS cabinet guarantees safe media storage The drawers of the device are closed with an Ultra Track lock (two keys included). The patented locking mechanism prevents several drawers from being pulled out at the same time.

- Product assembled - ready to use.
