

ProDevice ASM120 degausser

ProDevice ASM120 is the first degausser in the world, operating on the basis of our innovative PPMS (Pre-Paid Management System) technology. It is a professional, technologically advanced device for deleting data from magnetic media. It was designed as a part of a cooperative program with the AGH University of Science and Technology, produced and tested in the ProDevice research and development center. The ProDevice ASM120 degausser meets the strictest safety standards and guidelines in the field of data destruction.

Benefits

We care about safety and efficiency – you will irretrievably delete data from your media (magnetic field up to 11 000 Gauss = 1.1T).

We guarantee convenience and time savings – you can degauss hard drives, including those with the mounting frames.

We ensure flexibility – you can expand the portfolio of MaaS (Machine as a Service) services, provided in pre-paid mode.

Why choose the ProDevice ASM120 degausser?

- Highly effective – irreversible and safe deletion of data from magnetic media thanks to strong magnetic field of up to 11 000 Gauss (1.1T).
- Network mode - we were the first in the World to enable an Ethernet connection with a degausser from any location worldwide.
- PPMS (Pre-Paid Management System) technology – ProDevice is the only product on the market that enables programming a specific number of data erasing cycles, beyond which the device is automatically blocked.
- MaaS (Machine as a Service) – the degausser can be rented/lent/leased to provide pre-paid services.
- Automatic reporting – in 2012 we introduced new market standards, implementing the ability to generate a transparent degaussing assessment. The report can be downloaded to your computer as evidence of the data destruction process.
- Diagnostic tool – we are pioneers in implementing multilingual software that configures and checks degausser operating parameters.

Mobile App

Scanning

Report generation

ProDevice Mobile App. available and included to scan serial number of media and generate automatic reports.

The ProDevice ASM120 ensures compliance with the following mandates, regulation and security guidelines

- PCI DSS (Payment Card Industry), Data Security Standard
- NIST (National Institute of Standards and Technology), Guidelines for Media Sanitization: NIST SP 800-36 NIST SP 800-88
- HIPAA (Health Insurance Portability and Accountability Act)
- PIPEDA (Personal Information Protection and Electronic Documents Act)
- HMG CESG IS5

The degusser operates in accordance with the ISO27001 standard. ASM120 is a perfect solution for companies and institutions that care for the highest standards related to the protection of confidential data, defined by GDPR.

Supported magnetic storage media

- HDDs: 2.5" and 3.5" (even with the caddy trays)
- Data tape media: LTO, DLT, SDLT, DDS, DAT, AIT, Travan, MLR, SLR, QIC, 3480/3490, 3490E, 3590, 3590E, 3592, 9840, 9940, T10K, SD-3, VXA
- Audio and video tape cassettes
- Floppy disks

Technical specification

ProDevice ASM120 BASIC		ProDevice ASM120 PROFESSIONAL	
Max. magnetic field		1.1 T = 11 000 Gauss	
Data removal cycle		30 s / unit	
PPMS technology	No	Yes	
TCP / IP interface	No	Yes	
Power supply		115 V, 230 V / 50 Hz, 60 Hz	
Dimensions		H. 221 mm x W. 465 mm x D. 350 mm / 8.7 in x 18.3 in x 13.8 in	
Dimensions of the data media drawer		255 mm x 120 mm x 45 mm / 10 in x 4.7 in x 1.7 in	
Weight		33.5 kg / 73.9 lb	
Shipping case (option)		Yes	
Warranty		2 years up to 5 years	

The manufacturer reserves the right to update, improve, provide additional functionality, or otherwise introduce changes to the design of any products deemed necessary by the manufacturer.
