

## ProDevice OMS130 shredder

The ProDevice OMS130 automatic shredder is a compact office device for the physical destruction of data media, such as tablets\* and mobile phones (excluding rugged phones)\*, SSDs (excluding server drives), USB drives, CDs / DVDs and memory cards. The OMS130 is not suitable for the destruction of HDDs and server drives (HDD and SSD). A detailed list of media that can not be shredded can be found in the device's instruction manual.

ProDevice OMS130 is the perfect solution for companies and institutions that care about the security of storage media containing sensitive data. The shredder is easy to use and has a modern design.

### Benefits

#### Certainty

High level of security for destroyed, electronic flash data carriers.

#### Comfort

You can place a compact device even in a small company office.

#### Good value for money

You receive a high-quality flash media shredder at economical price.

### Why choose the ProDevice OMS130 shredder?

- Patented cleaning cutter system with dedicated cleaning function.
- For prolonged usage and to deliver sharpness, the cutters are made of specially hardened steel.
- Solid metal gear.
- Easy-to-use.
- Automatic reverse eliminates material jamming.
- Self-diagnosis reader.
- Device self-notifies the user when the container for shredded media is full.

### Application

Scanning

Report generation

ProDevice App for scanning media serial numbers and automatic report generation.

\* Lithium batteries need to be removed from mobile phones and tablets before destruction/shredding process.

## The ProDevice OMS130 shredder ensures compliance with the mandates, regulation and security guidelines

- DIN66399 | ISO/IEC 21964

O 4 for optical media  
E 4 for electronic data media

The shredder operates in accordance with the ISO27001 standard. OMS130 is a perfect solution for companies and institutions that care for the highest standards related to the protection of confidential data, defined by GDPR.
