

ProDevice OMS500 shredder

The automatic office mobile shredder ProDevice OMS500 is a professional device for the destruction of 2.5" and 3.5" hard disks, SSD, LTO and DDS tapes, USBs, CDs, DVDs, memory sticks, Blu ray optical media, credit and ID cards. The shredder is not suitable for shredding server disks.

ProDevice OMS500 is the perfect solution for all organizations, companies or departments with high volume of sensitive data or data with high need of protection. Compact design makes it a comfortable device in the office.

Benefits

We guarantee comfort - you can use the device to record and then archive the process of destroying carriers.

We ensure efficiency - you will receive the carrier shredded into very small pieces.

We provide security - the emergency switch will guarantee the safety of operation.

Why choose the ProDevice OMS500 shredder?

- Patented cleaning cutter system with dedicated cleaning function.
- For prolonged usage and sharpness, the cutters are made of special hardened steel.
- Solid metal gears.
- Easy-to-use with double entry for different data storage media.
- Automatic reverse eliminates material jamming.
- The emergency stop button ensures the safety of the operator.
- Self-diagnosis reader.
- Notification when the container for shredded media is full.
- Available with dedicated recording system (4 cameras) – optional.

The ProDevice OMS500 shredder ensures compliance with the mandates, regulations and security guidelines

- DIN66399 | ISO/IEC 21964
 - H-3/H-4 for hard drives with magnetic data media (two entries)
 - E-2 for electronic data media

OMS500 is a perfect solution for companies and institutions that care for the highest standards related to the protection of confidential data, defined by GDPR.
