

ProDevice OMS900 shredder

The ProDevice OMS900 automatic shredder is a professional device for the physical destruction of data carriers, such as server discs, 2.5" and 3.5" hard drives, tablets and mobile phones, SSDs, LTO and DDS tapes, CDs, DVD discs, USB and memory cards.

ProDevice OMS900 is the perfect solution for all organizations, companies or departments with high volume of sensitive data or data with high need of protection. Powerful engine and structure make ProDevice OMS900 the ideal device for the secure destruction of server drives.

Benefits

We ensure versatility - with the help of the device you can destroy all types of media, including server disks.

We guarantee comfort - you can record the process of destroying media and then archive it.

We give you convenience - you will receive a device of a small size in relation to shredders in this class.

Why choose the ProDevice OMS900 shredder?

- Patented cleaning cutter system with dedicated cleaning function.
- For prolonged usage and sharpness, the cutters are made of special hardened steel.
- Solid metal gears.
- Powerful engine (motor power 3.75 kW) for the secure destruction of server drives.
- Easy-to-use with double entry for different data storage media.
- Automatic reverse eliminates material jamming.
- The emergency stop button ensures the safety of the operator.
- Self-diagnosis reader.
- Notification when the container for shredded media is full.
- Available with dedicated recording system (4 cameras) – optional.

The ProDevice OMS900 shredder ensures compliance with the mandates, regulations and security guidelines

- ISO/IEC 21964
- DIN66399

H-3/H-4 for hard drives with magnetic data media (two entries)

E-2 for electronic data media

OMS900 is a perfect solution for companies and institutions that care for the highest standards related to the protection of confidential data, defined by GDPR.
