

ProDevice OMS900 shredder

CYBERSECURITY[™]
MADE IN EUROPE

The ProDevice OMS900 automatic shredder is a professional device for the physical destruction of data carriers, such as server disks, 2.5" and 3.5" hard drives, tablets and mobile phones, SSDs, LTO and DDS tapes, CDs, DVD discs, USB and memory cards, mobile phones*, tablets* etc. A detailed list of media that can be shredded can be found in the device's instruction manual.

ProDevice OMS900 is the perfect solution for all organizations, companies or departments with high volume of sensitive data or data with high need of protection. Powerful engine and structure make ProDevice OMS900 the ideal device for the secure destruction of server drives.

Benefits

Versatility

With help from our device you can destroy all types of media, including server disks.

Comfort and accountability

You can record the process of destroying media and then archive the recording.

Convenience

You receive a device with a small footprint in relation to shredders in this class.

Why choose the ProDevice OMS900 shredder?

- Patented cleaning cutter system with dedicated cleaning function.
- For prolonged usage and to deliver sharpness, the cutters are made of specially hardened steel.
- Solid metal gear.
- Powerful engine (motor power 3.75 kW) for the secure destruction of server drives.
- Easy-to-use with double entry for different data storage media.
- Automatic reverse eliminates material jamming.
- Emergency stop button ensures the safety of the operator.
- Self-diagnosis reader.
- Device self-notifies the user when the container for shredded media is full.
- A dedicated, built-in recording system is available as an option (4 cameras). When shredding, it records four screens for example an employee, two cutting blocks and the bin.

Mobile App.

Scanning

Report generation

ProDevice mobile App for scanning media serial numbers and automatic report generation.

*Lithium batteries need to be removed from mobile phones and tablets before destruction/shredding process.

The ProDevice OMS900 shredder ensures compliance with the following mandates, regulation and security guidelines

- DIN66399 | ISO/IEC 21964

H-3/H-5 for hard drives (two entries)
E-2/E-4 for electronic data media (two entries)
T-1/T-5 for media tapes (two entries)

See how the ProDevice OMS900 shredder works

The shredder operates in accordance with the ISO27001 standard.

OMS900 is a perfect solution for companies and institutions that care for the highest standards related to the protection of confidential data, defined by GDPR.
