

ProDevice Mobile App

Meet the world's first devices (for data and media destruction, for transport and storage data media) compatible with an intuitive ProDevice mobile application. The app manages data media throughout their entire lifecycle in accordance with the highest security standards. It's available in both basic and extended versions. For every ProDevice purchased, you'll receive five free user licenses.

ProDevice App is part of the ProDevice ecosystem, which includes products (for storage, transport, data and media destruction) and software enabling the management of processes related to data security.

Benefits

Inventory and reporting – the application allows you to inventory data media and create reports (all ProDevice products) – possibility to export the report to .pdf and .csv.

While using the extended version of application, it's possible to take pictures of data media, record videos of the degaussing process (ASM240 PROFESSIONAL and ULTIMATE*).

The application is available in a basic (ASM240 BASIC) and extended version (ASM240 PROFESSIONAL and ULTIMATE*).

The application is compatible with the following ProDevice products:

- ProDevice ASM120 degausser (BASIC and PROFESSIONAL): serial number scanning, reporting.
- ProDevice ASM240 BASIC degausser: serial number scanning, reporting.
- ProDevice ASM240 degausser (PROFESSIONAL and ULTIMATE) with serial numbers starting with 09EADC: serial number scanning, photographing degaussed media, recording the degaussing process, reporting. ASM240 degaussers (PROFESSIONAL and ULTIMATE) manufactured after the third quarter of 2025 with serial numbers starting with "ASM240" are supported by the cross-platform **ProDevice HUB application**.
- ProDevice shredders: serial number scanning, reporting;
- ProDevice data media transport and storage systems: serial number scanning, reporting.

ProDevicie Mobile App.

Scanning

Taking photos

Recording movies

Creating reports

The ProDevice App was made for users who want to create the full documentation connected with the process of demagnetization, destruction or inventory of data carriers.

Combining the application with the ProDevice ASM240 ULTIMATE* degausser presents you the opportunity to:

- Access to the extended version of the application.
- Photographing and recording the process directly from the application and attaching this documentation to the report.
- Taking photos from the device level (the built-in camera automatically takes pictures of degaussed media and attaches the photos to the report).
- Access to the full report after logging into the device's wi-fi network.

8 languages:

English, Polish, Italian, French, Spanish, German, Czech, Slovak

ProDevice App on your mobile device:

- Possibility to download to IOS and Android devices.
- Intuitive, easy to use.
- Multilingual (available in 8 different languages).

See how the ProDevice ASM240 degausser (with serial numbers starting with 09EADC) works

Technical specification

ProDevice App – basic version		ProDevice App – extended version
Supported devices	All ProDevice products	PROFESSIONAL and ULTIMATE ASM240 degaussers
Number of licenses	Package of 5 licenses for each ProDevice product purchased	Package of 5 licenses for each ProDevice product purchased
Access	Free	Free
Serial number scanning	Yes	Yes
Taking photos	No	Yes
Recording movies	No	Yes
Creating reports	Yes	Yes

* The ProDevice extended version application works with ProDevice ASM240 degaussers with serial numbers starting with 09EADC.
