

Case for degausser ProDevice ASM240

The case for ProDevice ASM240 degausser allows for quick, safe and easy transportation of the device. Its solid construction makes it exceptionally resistant to damage caused by crushing, extreme weather conditions and the effects of strong chemicals.

Steel structural elements, reinforced hinges guarantee durability and full safety of the transported device. The suitcase is fully airtight and does not allow any dirt to get inside. It has an easy-to-use retractable handle and wheels, which ensure great mobility.

Benefits

We ensure safety - the degausser is effectively protected against damage.

We guarantee solidity and reliability - the structural elements of the case are made of high-quality steel.

We provide convenience - the case is equipped with wheels and a handle, making it easy to transport.

Case for ProDevice ASM240 degausser

- Dimensions
670 mm x 677 mm x 418 mm
- Weight:
14.5 kg
- Temperature range:
minimum: -40°C -32°F
maximum: +80°C +176°F
- International standards:
ATA 300, IP67, STANAG 4280, DS 81-41
- Tested for:
dropping, impact, water resistance, structural integrity, color and material resistance to UV radiation
- Materials:
TTX01 (housing) / POM (latches) / SEBS (handle) / PA66GF30 (external handle) / aluminum / stainless steel (structural elements)
